

Masterclass in (WEFE) Nexus Development Water-Energy-Food Ecosystems in the South Mediterranean

3 to 6 July 2023 – Cairo, Egypt

About

This 4-day masterclass will explore the WEFE Nexus (the complex interlinkages between Water, Energy, Food and Ecosystems) and its implications for sustainable development including approaches, challenges, and solutions. This highly interactive training will utilize expert presentations, group work, and hands-on activities such as case studies to convey essential information about the WEFE Nexus and its practical applications. The training will also include a technical site visit to the demo-site of the AWESOME Project (mAnaging Water, Ecosystems and food across sectors and Scales in the south Mediterranean).
