This is the 5th session of the 2nd Round of Webinar on Water-Food-Energy. It focuses on **NEXUS SOLUTIONS**.

This session will present and discuss some of FAO's tools and work regarding the implementation of the WEF Nexus approach. The presentation and discussion will be based on concrete examples of where FAO's WEF Nexus approach and tools have been applied to the assessment of sustainable bioenergy potential, solar irrigation, and investments in renewable energy for food chains. The session will also feature some major challenges and opportunities to scale up the WEF Nexus.
