REFERENCE NUMBER: RSS/NEX-LABS/005/2023

Budget allocated: 10,000 EUR

2 PROJECT DESCRIPTION

NEX-LABS aims to support the implementation of clean technologies for sustainable and resilient increase of agri-food sector production based on a more efficient use of energy (renewable/solar solutions) and water (wastewater treatment, water harvesting or reuse solutions) in MPC region thanks to the contributions of ICT such as blockchain technology, Internet of the Things (IoT), Artificial Intelligence (AI), Machine Learning and Big Data.

NEX-LABS will contribute to the creation of a sustainable and resilient agro food sector based on NEXUS driven Open Living Labs (NDOLL) approach, thus strengthening technology transfer, cooperation industry-academia, increasing commercialisation opportunities and innovation-driven growth.

3 PURPOSE OF THE CONTRACT

Implementation of Commercialization Prize within the activities of NEX-LABS Project. The objective of the service provider is to:

- Provide 2 selected WEF-NEXUS researchers/academics with access to external expertise/mentorship/services in support of spinoff creation.
- Conduct Needs assessment of technological and industrial viability, technological developments of processes, products and services. Recruit technical experts based on the assessment to provide advisory services.
- As a proof of service completion, the service provider should develop with the beneficiary a narrative report including summary of testing activities conducted, beneficiary's interpretation

of results, the anticipated impact both qualitatively and quantitatively and an activity assessment, including how was the visibility of NEX-LABS contribution ensured.

4 SCOPE OF ACTIVITY AND REQUIREMENTS

- The service provider selected will be responsible for assisting 2 WEF-NEXUS researchers/academics selected by RSS based on defined selection criteria.
- The service provider should be willing to interact with the project partnership and to participate in teleconference meetings if required for the development of the proposed services.
- The service provider can recruit trainers/experts with specific expertise to assist the beneficiaries based on the needs assessment.

5 TARGET BENEFICIARIES

The targeted number of beneficiaries is 2 from eligible territories in Jordan, requiring access to specific expertise and mentorship to effectively spin-off towards addressing NEXUS challenges.

6 ACTIVITY OUTCOMES

NEXLABS Commercialization Prize that aims at empowering 2 researchers/academics who are working on NEXUS-related towards enabling commercialization and the creation of spin-offs. The prospective beneficiaries will benefit from a needs assessment followed by tailored advisory services worth 5,000 euros that must include but are not limited to: commercialization strategy, process development, IPR management, matchmaking, industry linkages, industry regulations, etc. This voucher is an instrument to provide promising researchers addressing NEXUS challenges in the region to transfer their technology and set foot in the market.

The service provider will work closely with the beneficiaries to match them with the right consultants and offer the right capacity building tools.

The outcome of the beneficiary/service provider collaboration can be:

- Spin-off project formation
- Business model development
- Business plan development
- Fund-raising strategies
- Market access strategies
- IPR Strategy

7 SELECTION CRITERIA

The service provider will be selected based on:

- Proposal and methodology suggested 40%
- Bio, proven track records and experience in the field required 40%
- Cost 20%
